NIP (Tax ID)	777-00-03-038
REGON (Statistical ID)	631000141

2. CONFIRMATION THAT THE PLANT IS SUBJECT TO MAJOR ACCIDENT PREVENTION REGULATIONS AND THAT THE OPERATOR HAS NOTIFIED THE RELEVANT AUTHORITIES AND SUBMITTED THE ACCIDENT PREVENTION PROGRAM

Based on the Seveso III Directive and the Regulation of the Minister of Development of January 29, 2016 concerning the types and quantities of hazardous substances present in the plant that determine its classification as a plant with increased or high risk of a major industrial accident, the Spirit Rectification Plant in Poznań has been classified as a plant with increased risk of a major industrial accident. In accordance with art. 250 of the Environmental Protection Law, the plant operator reported the plant on July 16, 2002, to the Municipal Commander of the State Fire Service in Poznań and the Greater Poland Voivodeship Inspector of Environmental Protection in Poznań.

3. DESCRIPTION OF THE PLANT'S ACTIVITY

The Spirit Rectification Plant (Zakład Rektyfikacji Spirytusu) is a plant storing ethyl alcohol (rectified spirit) for the needs of the Wyborowa SA plant located in Zielona Góra, ul. Jedności 59, and for small customers.

4. CHARACTERISTICS OF STORED HAZARDOUS SUBSTANCES, INCLUDING THEIR NAMES OR CATEGORIES AND THE THREATS THEY POSE

The hazardous substance stored on the plant premises is **ethyl alcohol (ethanol)**.

Hazard statements for ethanol:

- H225 Highly flammable liquid and vapor.
- H319 Causes serious eye irritation.

Precautionary statements:

- P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
- P233 Keep container tightly closed.
- P243 Take precautionary measures against static discharge.
- P280 Wear protective gloves/protective clothing/eye protection.
- P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
- P403+P235 Store in a well-ventilated place. Keep cool.

Labeling elements:

- Pictograms indicating the type of hazard and warning signal word:

DANGER

5. INFORMATION REGARDING METHODS OF WARNING AND PUBLIC BEHAVIOR IN THE EVENT OF A MAJOR ACCIDENT

5.1. Methods of warning and informing the population in the event of a major accident

In the event of a fire, leakage, or other threat at the Spirit Rectification Plant in Poznań at ul. Janikowska 23, an alarm siren is activated – a continuous sound lasting 3 minutes. Any security employee is authorized to activate the alarm siren. Along with the activation of the alarm siren, a report is sent to the nearest fire protection unit – the State Fire Service – about the situation. Due to the fact that the threats that may occur at the Spirit Rectification Plant do not extend beyond its area, the sound of the alarm siren only concerns the emergency response team located at the plant, its employees, and persons staying on the plant grounds. Any decision to evacuate surrounding residents is made by the rescue operation commander from the State Fire Service. In the event of any alarm, it is absolutely necessary to obey the law enforcement services, especially those directing the rescue operations on behalf of the State Fire Service. If necessary, information for the public will be provided in Police or State Fire Service announcements (in accordance with their competencies, information may also be provided via media outlets).

5.2. How the population living or staying in the immediate vicinity of the Spirit Rectification Plant should proceed in the event of a major accident

In the event of an announced fire alarm or other local threat on the grounds of the Spirit Rectification Plant in Poznań at ul. Janikowska 23, cooperation is expected between the local community residing around the plant and the authorities authorized to direct the rescue and firefighting operation (organizational units of fire protection and the police).

Upon hearing the warning signal, you should

1. Do not approach the danger zone.
2. Turn on the television or radio to the local station's frequency.
3. Listen carefully to the broadcasts.
4. Follow the instructions broadcast in the mass media.
5. **When leaving the house, remember to take:**
 - Documents.
 - Mobile phone and charger.
 - Medicines and prescriptions in case of chronic diseases requiring daily medication, e.g., diabetes, ischemic heart disease, and others.
 - Toiletries.
 - Important family documents, e.g., insurance policies, bank account numbers, contact addresses and telephone numbers, notarial deeds, identity documents, securities - stocks and bonds, vaccination records, credit card numbers, health insurance cards, wills, etc..
 - Keys to motor vehicles, safes, etc..
6. When leaving the house, remember to turn off the supply of all utilities to the building/apartment (gas, electricity, water).
7. When leaving the house, remember to lower the blinds and lock the house.
8. Go to the evacuation assembly area specified in the announcement.

In the event of heavy smoke, you should:

- Avoid contact with thermal decomposition products.
- Do not obstruct the access of rescue teams to the Spirit Rectification Plant.
- Do not enter the area of heavy smoke.
- Close and seal windows and openings through which smoke could penetrate into apartments and rooms.
- Stay calm and move away from the smoking area in a direction perpendicular to the wind direction.
- Follow the instructions of the commanders conducting the rescue, firefighting, and security operations.

Additionally, in accordance with the assumptions adopted in the "Crisis Management Plan for the City of Poznań", the public is also warned with the participation of the Crisis Management Center for the City of Poznań and the Regional Warning System (RSO) using:

- Technical alarm systems (sirens, SMS information system).
- Announcements broadcast by the media.
- Announcements placed on the website.
- Announcements placed on the website of the Poznań City Hall www.poznan.pl and social media portals.
- Announcements broadcast by public address systems on Police, Municipal Guard of the City of Poznań, and State Fire Service vehicles, and announcements communicated orally by officers of these services.
